

THE SECOND
QLF Alumni Congress

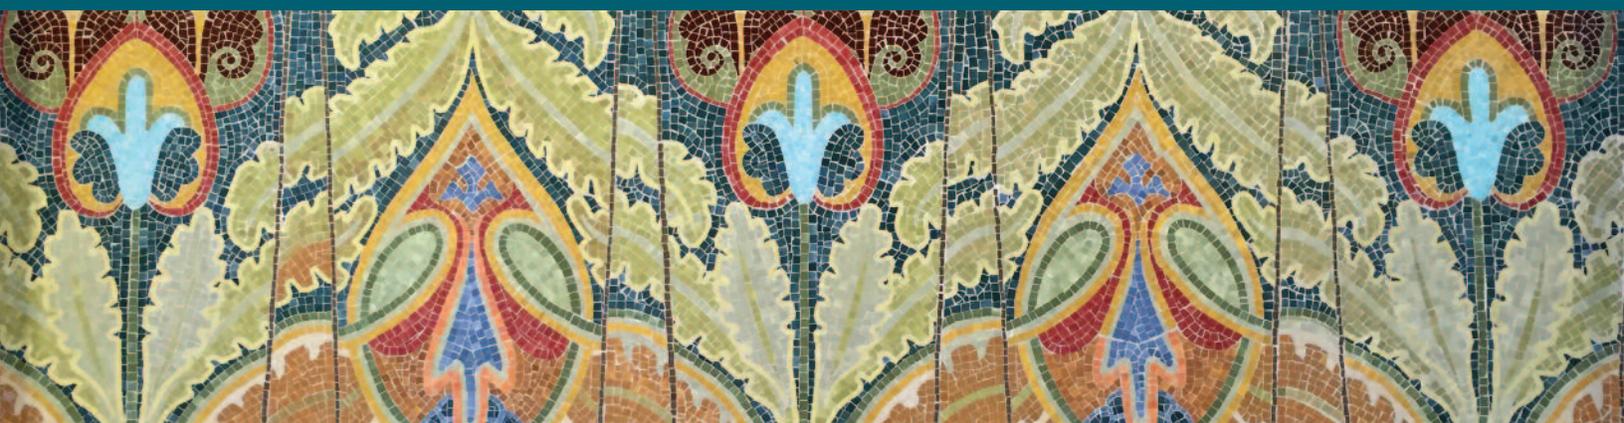

BARCELONA, CATALONIA, SPAIN

SUNDAY, 13 NOVEMBER 2016 – WEDNESDAY, 16 NOVEMBER 2016

At the Congress, QLF Alumni, partner organizations, and practitioners will convene in Barcelona to share knowledge of stewardship of natural resources and cultural heritage; catalyze conservation action; and set QLF's agenda for the next decade.

The Congress has the potential to make a lasting contribution to a more sustainable global community.

BARCELONA – LIVING MODERNISM

A relationship with Catalonia has thrived over the latter half of the 55-year history of QLF. When QLF began an exchange program in Eastern Europe shortly before the fall of the Berlin Wall, the German Marshall Fund of the U.S. asked QLF to include Catalonia in our Exchanges. The Fund recognized that the region was still recovering from the Franco regime in much the same way that Czechoslovakia, Hungary, Poland, and Romania were emerging from Soviet dominion.

A decade later, QLF's participatory approach to land stewardship found fertile ground in Catalonia, culturally and historically predisposed to a social approach to conservation. One Alumnus teamed with a savings bank to create a network of privately protected areas across the country; another created a Catalan network of local organizations that support individuals to manage private natural areas.

In recent years, QLF advised these Alumni and others in a European Union project to promote land stewardship across the continent, and co-authored a guide on the subject. Today, QLF has friends and Alumni across the country, and at high levels of government and NGO conservation agencies.

CONGRESS PARTICIPANTS

There is overwhelming consensus that QLF's greatest strength over its history has been its cadre of Volunteers, Interns, International Fellows, and staff who have worked for over five decades in every capacity. QLF's Alumni number more than 5,000 and hail from 75 countries in six regions worldwide. Many command leadership in academia, business, government, law, and medicine. A majority are leaders in community and conservation. All Alumni share the same spirit and feelings about QLF undiminished by time and geography.

In November, QLF will, once again, tap the enormous talent, energy, and wisdom of its Alumni as we focus our vision in the face of a major QLF milestone; that is, the formalization of the Global Leadership Network, QLF's Network of Alumni worldwide. *Congress* participants — representing 50 countries and six regions — will assemble in Barcelona to:

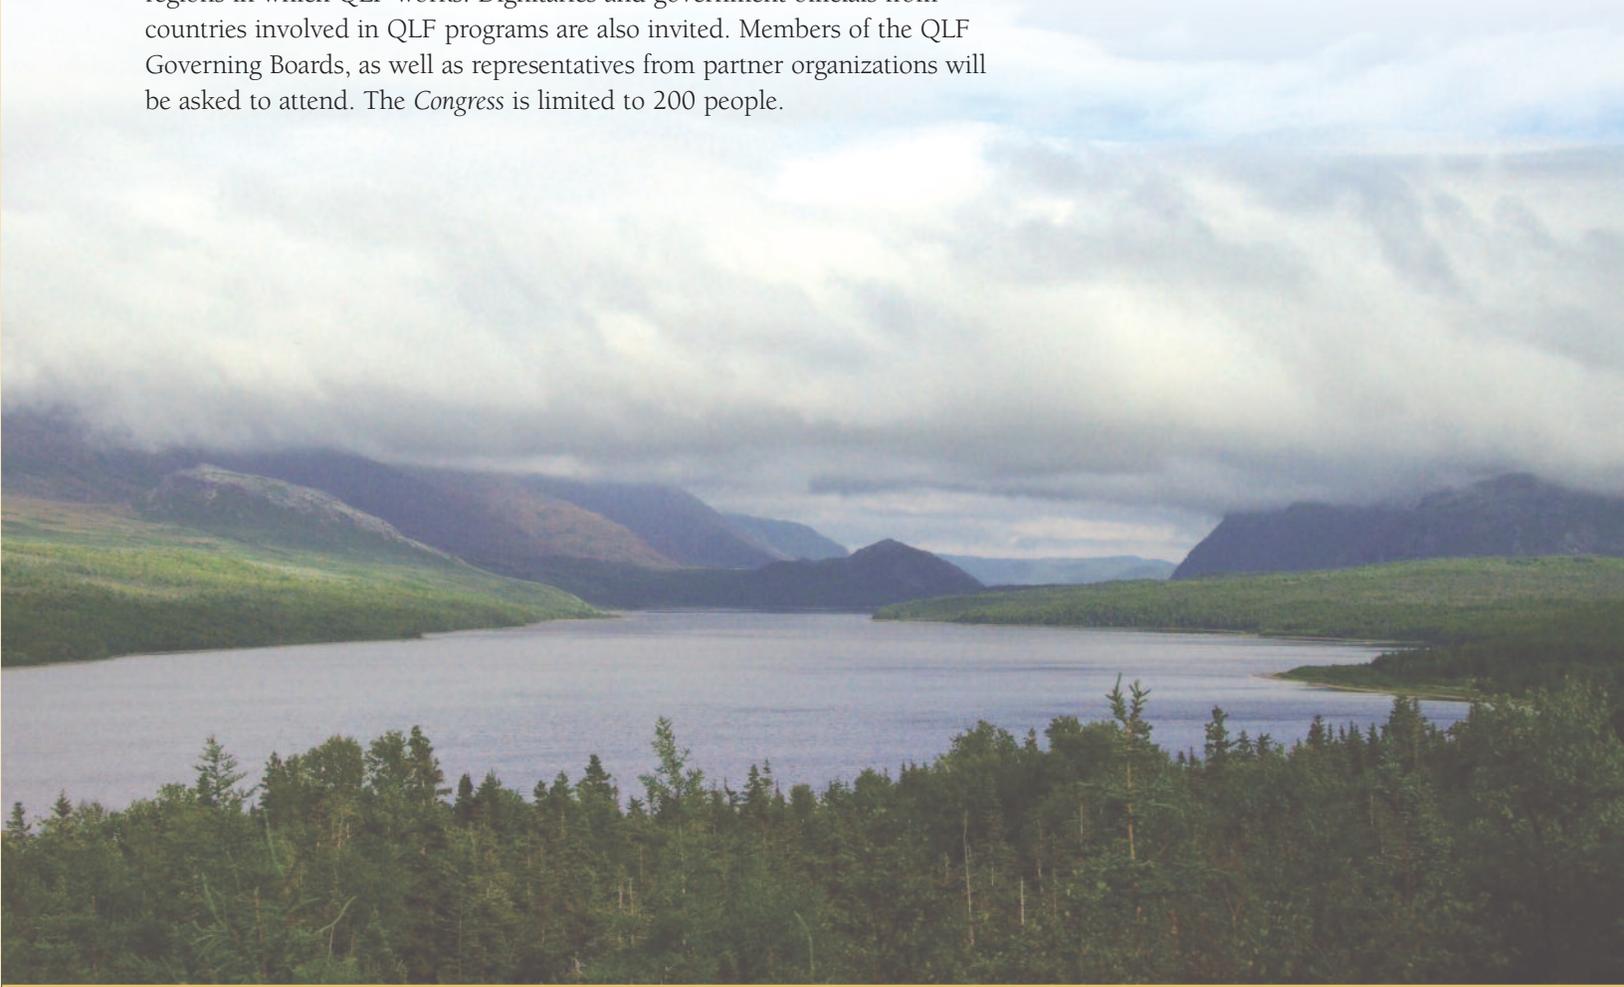

- ◆ Convene & Network
- ◆ Present & Report on Accomplishments
- ◆ Forge alliances and working partnerships to address global concerns in ways that governments cannot.

The *QLF Alumni Congress* will include selected Alumni from the global regions in which QLF works. Dignitaries and government officials from countries involved in QLF programs are also invited. Members of the QLF Governing Boards, as well as representatives from partner organizations will be asked to attend. The *Congress* is limited to 200 people.

OBJECTIVES

- Provide an opportunity for Alumni to Convene and Network. There will be time for informal conversations during meals, between Workshop Streams, and field trips.
- Participate in a two-day Stewardship Workshop managed by Brent Mitchell, Senior Vice President. The Workshop includes presentations by Alumni, Partner Organizations, and Members of the Governing Boards.
- Share knowledge and expertise among a multi-disciplinary, global network of conservation leaders and practitioners who continue to influence public policy at a regional and global level.
- Launch new programs, partnerships, and consulting teams under the banner of the Global Leadership Network.
- Present a Vision for QLF in its next decade as Larry Morris transitions to President *emeritus* and Beth Alling becomes QLF's third President in 55 years.

ADDITIONAL ACTIVITY

CATALAN STEWARDSHIP: A PRE-CONGRESS STUDY TOUR

A select group of QLF Alumni from other regions will join with Catalan counterparts and policymakers to explore the current practice and future potential for nature stewardship and privately protected areas in the country.

This two-day event will explore local issues in detail and help inform discussions with the larger group during the main Congress program.

ADDITIONAL ACTIVITY

ANDALUSIA: A POST-CONGRESS TOUR

A post-Congress tour to Seville and Córdoba will bring Alumni and other QLF constituents to Andalusia. Andalusia is one of Spain's seventeen autonomous communities and lies in southwest Spain bordering both the Atlantic and Mediterranean oceans. Over its long history, the region has seen a succession of cultures and religions including long periods of Roman and Islamic rule. Today, architecture and traditions in Andalusia reflect a blend of cultures. Andalusia importantly represents UNESCO sites, protected areas, important historic cross-border trade, and coexistence of the world's great religions. The area echoes QLF's focus in community, culture and conservation, and the organization's work across cultural, religious and geographic borders.
